

The day sheet

Name _____

- One row for every run, all day.
- Fill it right after the run, while you still remember.
- “Minutes it ran” is the clock time from your prompt until the agent stops. A first run on a PDF took 12 minutes in the dry run, most cards under 2.
- You need it after lunch, when we look back at v0.1.0, and for page 2 of your zine.

Run	What happened (one line)	What it assumed	Minutes it ran	Would I merge this?	Committed?
